

Ecovolunteers* around the world

Ecolybride

Ecolybride, it is a desire **for adventure and help our Planet** at the same time. It is about giving an insight of the **traditional and wild treasures of Earth**.

It is a way **to educate French speakers about green travel**. Ecolybride, it is about showing that **everyone can help protecting biodiversity** while meeting people and discovering new places !

Volunteering World Trip

Our world trip is a way **to show the diversity of the volunteering missions for wildlife** and promote sustainable travel.

During one year, we visit 4 continents to work with diverse animal organisations. Between our missions, we **blog out beautiful and unknown natural places that can be visited whilst respecting the environment**.
